Appendix 1.4. CWCS-generated list of Conservation Actions (Step 2) with Mammal Team 10-year scheduling (Step 3)								
Taxa	Scientific_Name	Common_Name	Conservation_Actions	CA_Category	Importance	Target Year (2006-2015)	Enter corresponding "Extant Monitoring" project(s), if any, in this column	Enter comments regarding "Extant Monitoring" project(s), if any, in this column
Mammal	Reithrodontomys montanus	Plains Harvest Mouse	Encourage conservation easements on open land.	Habitat Restoration/ Improvement	2	2007		extant programs for grassland restoration
Mammal	Reithrodontomys montanus	Plains Harvest Mouse	Restore native warm season grasses and forbs.	Habitat Restoration/ Improvement	2	2007		extant programs for grassland restoration
Mammal	Myotis austroriparius	Southeastern Bat	Encourage landowners to leave roost trees.	Habitat Protection	1	2007		
Mammal	Reithrodontomys megalotis	Western Harvest Mouse	Restore native warm season grasses and forbs.	Habitat Restoration/ Improvement	1	2007		extant program (quail initiative)
Mammal	Lepus californicus	Black-tailed Jackrabbit	Encourage conservation easements on open land.	Habitat Protection	2	2008		good umbrella approach that will benefit multiple species
Mammal	Myotis leibii	Eastern Small-Footed Bat	More data is needed to determine conservation actions.	Data Gap	2	2009		
Mammal	Myotis sodalis	Indiana Bat	Protect hibernacula	Habitat Protection	3	2010		other programs fund this project
Mammal	Myotis grisescens	Gray Bat	Protect caves used by this species.	Habitat Protection	2	2010		other programs fund this project
Mammal	Lasiurus seminolus	Seminole Bat	More data is needed to determine conservation actions.	Data Gap	2	2012		
Mammal	Mustela frenata	Long-tailed Weasel	More data is needed to determine conservation actions.	Data Gap	2	2013		
Mammal	Myotis austroriparius	Southeastern Bat	Restore bottomland hardwoods.	Habitat Restoration/ Improvement	3	2015		other programs fund this project
Mammal	Ursus americanus americanus	American Black Bear	Maintain sustainable harvest.	Population Management	3	2015		very low priority for CWCS funding
Mammal	Ursus americanus americanus	American Black Bear	Continue to translocate White River bears to West Gulf Coastal Plain.	Population Management	3	2015		very low priority for CWCS funding

Taxa	Scientific_Name	Common_Name	Conservation_Actions	CA_Category	Importance	Target Year (2006-2015)	Enter corresponding "Extant Monitoring" project(s), if any, in this column	Enter comments regarding "Extant Monitoring" project(s), if any, in this column
Mammal	Ursus americanus americanus	American Black Bear	Continue efforts to educate public about bears and bear restoration efforts.	Public Relations/Education	1	2015		
Mammal	Notiosorex crawfordi	Desert Shrew	More data is needed to determine conservation actions.	Data Gap	2			See necessity for more data prior to conservation action
Mammal	Reithrodontomys humulis	Eastern Harvest Mouse	More data is needed to determine conservation actions.	Data Gap	2			See necessity for more data prior to conservation action
Mammal	Sorex longirostris	Southeastern Shrew	More data is needed to determine conservation actions.	Data Gap	2			See necessity for more data prior to conservation action
Mammal	Spilogale putorius	Eastern Spotted Skunk	More data is needed to determine conservation actions.	Data Gap	2			See necessity for more data prior to conservation action
Mammal	Synaptomys cooperi	Southern Bog Lemming	More data is needed to determine conservation actions.	Data Gap	2			See necessity for more data prior to conservation action
Mammal	Taxidea taxus	American Badger	More data is needed to determine conservation actions.	Data Gap	2			See necessity for more data prior to conservation action
